CCK18APC7 7mm Coaxial Calibration Kit

FEATURES:

- ◆ APC-7mm coaxial port:
- ◆ Broad-width: DC-18GHz
- ◆ High performance
- ◆ Calibration with fix loads

DESCRIPTION:

CCK18APC7 coaxial calibration kit is an instrument grade calibration kit,
The kit comes with one open, one short, one loads, and a N type torque wrench.

| Model | Description | Quantity |
|----------|----------------------|----------|
| C7OC | 7mm open | 1 |
| C7SC | 7mm short | 1 |
| CCLDC18C | 7mm load | 1 |
| CTWN | N type torque wrench | 1 |

SPECIFICATIONS:(temperature=23+/-3C, frequency:DC-18GHz)

| Model | Description | Specification |
|----------|----------------------|---------------------------------------|
| C7OC | 7mm open | Deviation from normal phase +/-0.5 |
| C7SC | 7mm short | Deviation from normal phase +/-0.5 |
| CCLDC18C | 7mm load | VSWR≤1.04 |
| CTWN | N type torque wrench | Torque Setting 135.6 +/-4.1 N.cm |

Higher accuracy are also available
